Bill,

Thanks for the quick turn around on the bond release application. Initially it looks pretty good to me, although there is one final thing that we forgot to have you do and that we need to have you complete. We need you to update the Degas Volume Attachment 5-2 Table to be included in the bond release application. It provides dates of reclamation for each site. It was last updated in 2010 and is critical to allow us to know when the bond liability period ends for these sites. We are still planning to do the bond release inspection on November 19th, meeting at the Walker Service Station at 8:00 am. Hopefully the weather will cooperate. Thanks. Daron

Mr. Haddock,

This email is written in response to notification received on October 28, 2014 detailing deficiencies in the Phase I and II Bond Release Application, Dugout Canyon Mine, C/007/039, Task 4705.

Dugout Canyon Mine is submitting Phase I and II Bond Release Application with the signed and notarized C1

form, copies of the letters sent to adjoining property owners, local government bodies, planning agencies,

sewage and water treatment authorities, and water companies in our locality and a notarized statement stating that all applicable reclamation has been accomplished.

Public notice for Phase I and II bond has been published in the Sun Advocate and will appear in the paper on

October 30, November 6, 13 and 20, 2014. After which the Affidavit of Publication will be submitted to the

Division.

The electronic file if for your convenience as the paper copies will arrive shortly.

Please contact me should you have any questions or comments regarding the enclosed information.

Sincerely,

**William King**
